

N E W S L E T T E R

Hi everyone! Didn't we give the Parks and Conservation Service a good surprise when we all turned up for the Training evening? Since then things have snowballed hence the newsletter.

Sunday June 23rd Walk on the Ridge at 1.30. Meet at 21 Ordell ST. Please turn up wet or fine. The Valley View are coming along to give us some publicity.

Saturday June 29th Cooleman Carnival at Cooleman Court. 10 till 2 (stalls from 8.30) I've booked a space and talked to the Rangers. Anyone able to man the table for a while please give me a call.

Saturday July 27th A Ranger guided walk for the general public on Cooleman Ridge From Kather Street at 2pm.

Saturday November 9th (It's not too early to put in your diary) Weston Creek Community Festival Tent and space booked.

ACT Vertebrate Atlas. If you have a report sheet to send in the Rangers ask that you send it to me please as they would like to know what input the Park Care group makes. We were the first group Mark has spoken to and they would like to monitor the results. (This applies to all sightings not just on the Ridge)

Until we know each other better could you please make sure you sign yourself in to all meetings as this is the only means I have of knowing who has what information.

The Rangers were on the Ridge the other day and noticed that huge cactus/succulent. I vote we get the Valley View to take a 'photo of Tony clutching it to his bosom!'

Cheers

Bess

PS Did you know a Coolemon is an Aboriginal carrying vessel? Neither did I.

I'm hoping to make contact with some other groups this week. More news at the walk.

PPS Just an idea How would you like to "adopt" a stretch of the fire trail area?
