

PARK CARE

NUMBER 6 MARCH 1992

COOLEMAN RIDGE GROUP

N E W S L E T T E R

Hi everyone and thank you to the people who came to the meeting and/or helped with the Clean Up Australia Day. We got 10 large sacks of litter from the ridge itself despite our regular cleanups.

At the meeting it was arranged that the Parks and Conservation Rangers would come out with us on the Sunday of the first full weekend in any month, that we would begin at 1.30 and start from the Namatjira Drive entrance.

FIRST MEETING	SUNDAY	APRIL	5TH	}+ 1.30 onwards
NEXT	"	"	MAY	

When the Ranger is there we can "cut and dab". We would also like to do some more mapping and collect and propagate seeds. If Sundays are not suitable give me a ring (2887536) and we can arrange some Saturday activities. I would also be delighted to hear from anyone who would like a wander during the week (morning or afternoon) perhaps we could also collect seeds.

Greening Australia was interested in another tree-planting this Autumn but I haven't heard from them yet. Listen to David Young and watch Fridge Door for further news.

Hope to see you on April 5th.

Cheers,

Bess.
