COOLEMAN RIDGE NEWSLETTER

Hi Everyone,

Have you noticed how everything has suddenly started to grow? - including the oats and thistles on the Ridge. Any time you feel like cutting things down please feel free to use your shears on them, and the roses, cotoneasters etc. Please don't cut the blackberries or Paterson's Curse, they have biological controls on them.

Bushfire season is upon us (two this week) and there will be no Rangers available from Nov 1 until April 1, however, we really can't let 5 months slip by so we'll keep going on the Sunday of the first full weekend each month and Friday mornings. If we meet at TITHERIDGE PLACE each time we can work from there.
